**SPECIAL THANKS** to [GoKartTees.com](http://GoKartTees.com) for their support of Round 4 of the Colorado Karting Tour 2021 Season! If you're unfamiliar with GoKartTees, please check 'em out - they've got a great selection of the best karting themed clothing and accessories anywhere!

### RACE DAY NOTES:

1. **Pits are intended for trailers and karts.** At IMI, there is not enough space to park both tow vehicles and trailers. Racers will be prioritized over "campers". Nobody wants to have to move a motorhome when the pits are almost full, so please drop your trailer / pit setup and park your tow vehicle / motorhome in spectator parking.
2. Once CKT takes responsibility for the track, **pits are COLD.** This means no bikes, scooters, roller skates, heelies, winged flight, rotorcraft, or teleportation. Only travel by foot.
3. **GoPro cameras and mounts must be fastened to the front fairing with safety wire.** There are no exceptions - please don't risk clobbering an innocent bystander with your five hundred dollar electronic projectile for your dreams of a wicked-cool instagram post.
4. There is **no bump-drafting allowed in qualifying.** Bump drafting will be penalized with a DQ. If you're being bumped you **may** be penalized unless you raise your hand to indicate that you aren't complicit with the activity. If you bump or get bumped during qualifying, you now know why you got that penalty.
5. We're all out here to have fun. Let's all just be cool, it's not your ticket to F1. Accordingly, physical altercations will be met with swift action, **regardless of the reason** for the confrontation. Shove, and you'll be suspended. Shove back, and you'll be suspended. Flagrant verbal (or physical) displays of unsportsmanship will get you ejected. Verbal retaliation? You're ejected, too. If you have questions, please reference the Racer Pledge and the CKT 2021 rulebook for details.
